About Me

As an Informatics Engineering undergraduate student, I am passionate about full-stack web development and deeply interested in cybersecurity and system security. My learning journey has been enriched through academic projects and self-directed study, driving me to build secure, scalable, and efficient digital solutions.

Education

Politeknik Negeri Semarang (2023–Present)
Bachelor's Degree in Informatics Engineering– GPA 3.86

Experience

PCC (Polytechnic Computer Club) (2024–Present)
Active Member

A student club focused on IT development, technical workshops, and collaborative learning projects at Politeknik Negeri Semarang.

Project ([website project](#))

- **Online Exam Monitoring System** – *Laravel & React* (2025)
Developed a secure, real-time online examination platform
- **Hajifund Investment App Backend System** – *Laravel* (2025)
Built backend APIs for managing investment data and user portfolios.
- **IGNITOR Game Launcher for Educational Games** – *Electron & React* (2025)
Created a desktop launcher that integrates educational games into a single platform.
- **Face Recognition Attendance System Backend** – *Laravel* (2024)
Designed and implemented face recognition–based attendance management backend.
